

PO SHIPPING ADDRESS - QA TESTING SCENARIOS

Date: May 26, 2026

OVERVIEW

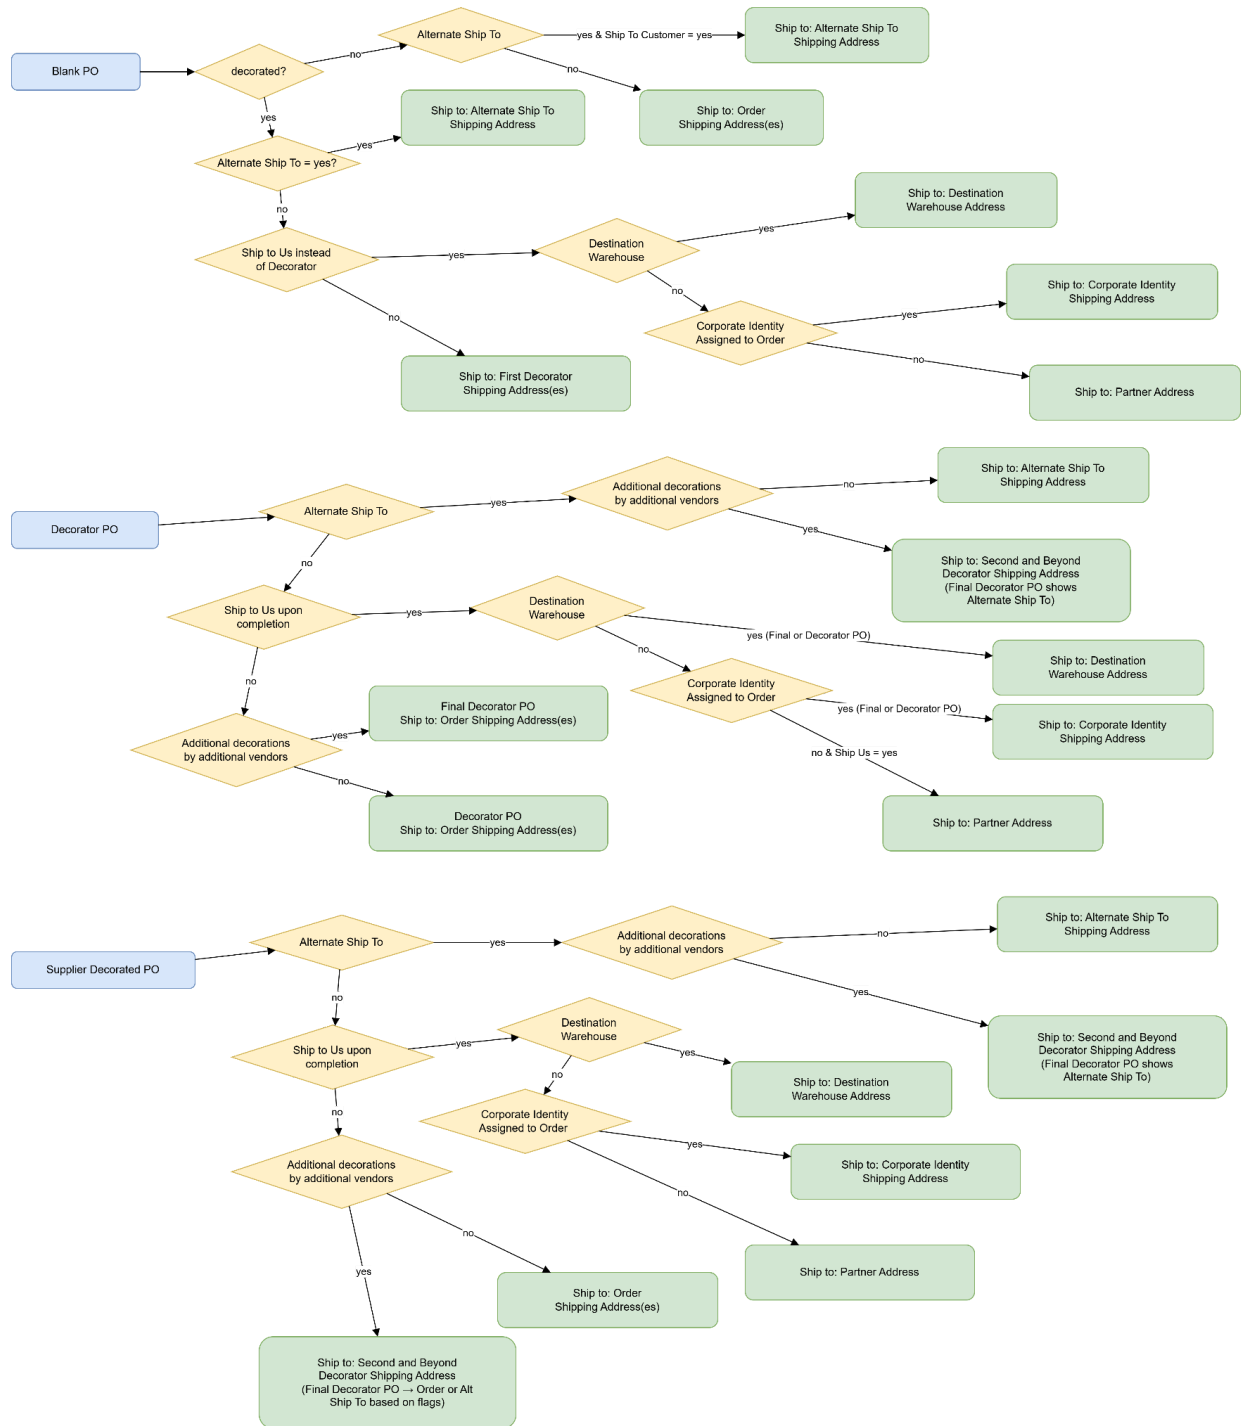

This document contains a comprehensive list of QA testing scenarios for PO shipping address determination. Each scenario maps to specific business rules governing how shipping addresses are resolved across Blank POs, Decorator POs, and Supplier Decorated POs.

Settings/Flags Used Across Scenarios:

- Decorated (Yes/No)
- Alternate Ship To (Yes/No)
- Ship to Us Instead of Decorator (Yes/No)
- Ship to Us Upon Completion (Yes/No)
- Destination Warehouse Setting (Yes/No)
- Corporate Identity Assigned to Order (Yes/No)
- Additional Decorations by Different Vendors (Yes/No)

The tests were based on the following documents and diagram:

- [W Shipping Field Mapping.docx](#)
- [Page: PO Document Shipping Address determination](#)

Section A: Blank PO Shipping Address Scenarios

A-01: Blank PO - No Decoration, Alternate Ship To, Ship to Customer

Preconditions:

- Decorated = No
- Alternate Ship To = Yes
- Ship to Customer = Yes

Expected Result: Blank PO ships to Alternate Ship To Shipping Address

Status: 

A-02: Blank PO - Decorated, No Alternate, Ship to Us, Destination Warehouse

Preconditions:

- Decorated = Yes
- Alternate Ship To = No
- Ship to Us Instead of Decorator = Yes
- Destination Warehouse Setting = Yes

Expected Result: Blank PO ships to Destination Warehouse Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/dbd15176-5921-11f1-9447-0e9649c979d9>

A-03: Blank PO - Decorated, No Alternate, Ship to Us, No Warehouse, Corporate Identity

Preconditions:

- Decorated = Yes
- Alternate Ship To = No
- Ship to Us Instead of Decorator = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = Yes

Expected Result: Blank PO ships to Corporate Identity Shipping Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/70cdad32-5925-11f1-9447-0e9649c979d9>

A-04: Blank PO - Decorated, No Alternate, Ship to Us, No Warehouse, No Corporate Identity

Preconditions:

- Decorated = Yes
- Alternate Ship To = No

- Ship to Us Instead of Decorator = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Blank PO ships to Partner Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/3981739c-5926-11f1-9447-0e9649c979d9>

A-05: Blank PO - Decorated, No Alternate, No Ship to Us

Preconditions:

- Decorated = Yes
- Alternate Ship To = No
- Ship to Us Instead of Decorator = No
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Blank PO ships to First Decorator Shipping Address(s)

Status: 

Problem: Blank PO ships to Customer and not to decorator when “Prioritize Warehouse Address on Ship To Us Toggles” is On

Order:

<https://prd.anterasaas.com/e-commerce/orders/99442fdb-5926-11f1-9447-0e9649c979d9>

A-06: Blank PO - No Decoration, No Alternate, Default Flow

Preconditions:

- Decorated = No
- Alternate Ship To = No
- Ship to Us Instead of Decorator = No
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Blank PO ships to Order Shipping Address(s)

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/d3859e9c-5926-11f1-9447-0e9649c979d9>

A-07: Blank PO - No Decoration, No Alternate, Ship To Us, Cloned Line Item without Ship to us

Preconditions:

- Decorated = No

- Alternate Ship To = No
- Ship to Us Instead of Decorator = Yes
- Cloned Line Item with Ship to Us as no = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Blank PO should send the items to 2 places, to us and to decorator

Status: 

Problem: Everything ships to Us

Order:

<https://prd.aterasaas.com/e-commerce/orders/9ddab630-5aae-11f1-9447-0e9649c979d9>

A-08: Blank PO - Customer Portal, No Decoration, No Alternate, Ship To Us on only 1 line item

Preconditions:

- Decorated = No
- Alternate Ship To = No
- Ship to Us Instead of Decorator = Yes (1 line item)
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Blank PO should send the items to 2 places, to us and to decorator

Status: 

Problem: Everything ships to Us

Order:

Section B: Decorator PO Shipping Address Scenarios

B-01: Decorator PO - Alternate Ship To, No Additional Vendors

Preconditions:

- Alternate Ship To = Yes
- Additional Decorations by Different Vendors = No

Expected Result: Decorator PO ships to Alternate Ship To Shipping Address

Status: 

Order:

<https://prd.aterasaas.com/e-commerce/orders/fd2b9467-5926-11f1-9447-0e9649c979d9>

B-02: Decorator PO - Alternate Ship To, Additional Vendors (Non-Final)

Preconditions:

- Alternate Ship To = Yes
- Additional Decorations by Different Vendors = Yes
- This is NOT the final Decorator PO

Expected Result: Decorator PO ships to Second and Beyond Decorator Shipping Address

Status: 

Problem: The first decorator PO sends the products to Alternate Ship To instead of the second decorator PO so nobody sends the products to the second decorator

Order: <https://prd.aterasaas.com/e-commerce/orders/3dd3dff-5927-11f1-9447-0e9649c979d9>

B-03: Decorator PO - Alternate Ship To, Additional Vendors (Final PO)

Preconditions:

- Alternate Ship To = Yes
- Additional Decorations by Different Vendors = Yes
- This IS the final Decorator PO

Expected Result: Final Decorator PO ships to Alternate Ship To Shipping Address

Status: 

Order:

<https://prd.aterasaas.com/e-commerce/orders/dedccc83-5927-11f1-9447-0e9649c979d9>

B-04: Decorator PO - No Alternate, Additional Vendors, Final PO Default

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = Yes
- Ship to Us Upon Completion = No

Expected Result: Final Decorator PO ships to Order Shipping Address(s)

Status: 

Order: <https://prd.aterasaas.com/e-commerce/orders/390f3d5f-5928-11f1-9447-0e9649c979d9>

B-05: Decorator PO - No Alternate, No Additional Vendors, Default

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = No
- Ship to Us Upon Completion = No

Expected Result: Decorator PO ships to Order Shipping Address(s)

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/adf2de3d-5928-11f1-9447-0e9649c979d9>

B-06: Decorator PO - No Alternate, Additional Vendors, Ship to Us, Destination Warehouse (Final)

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = Yes
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = Yes

Expected Result: Final Decorator PO ships to Destination Warehouse Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/e6896bb9-5928-11f1-9447-0e9649c979d9>

B-07: Decorator PO - No Alternate, No Additional Vendors, Ship to Us, Destination Warehouse

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = Yes

Expected Result: Decorator PO ships to Destination Warehouse Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/9e441eb8-5929-11f1-9447-0e9649c979d9>

B-08: Decorator PO - No Alternate, Additional Vendors, Ship to Us, No Warehouse, Corporate Identity (Final)

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = Yes
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = Yes

Expected Result: Final Decorator PO ships to Corporate Identity Shipping Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/debc77f7-5929-11f1-9447-0e9649c979d9>

B-09: Decorator PO - No Alternate, No Additional Vendors, Ship to Us, No Warehouse, Corporate Identity

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = Yes

Expected Result: Decorator PO ships to Corporate Identity Shipping Address

Status: 

Order:

<https://prd.ateraas.com/e-commerce/orders/90f07c09-593d-11f1-9447-0e9649c979d9>

B-10: Decorator PO - No Alternate, Ship to Us, No Warehouse, No Corporate Identity

Preconditions:

- Alternate Ship To = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Decorator PO ships to Partner Address

Status: 

Order:

<https://prd.ateraas.com/e-commerce/orders/cd708a26-593d-11f1-9447-0e9649c979d9>

Section C: Supplier Decorated PO Shipping Address Scenarios

C-01: Supplier Decorated PO - Alternate Ship To, No Additional Vendors

Preconditions:

- Alternate Ship To = Yes
- Additional Decorations by Different Vendors = No

Expected Result: Supplier Decorated PO ships to Alternate Ship To Shipping Address

Status: 

Order:

<https://prd.aterasaas.com/e-commerce/orders/f5a7ca89-593d-11f1-9447-0e9649c979d9>

C-02: Supplier Decorated PO - Alternate Ship To, Additional Vendors

Preconditions:

- Alternate Ship To = Yes
- Additional Decorations by Different Vendors = Yes

Expected Result: Supplier Decorated PO ships to Second and Beyond Decorator Shipping Address (final PO shows Alternate Ship To)

Status: 

Problem: Supplier Decorated PO ships to Alternate Ship To instead of second decorator

Order:

<https://prd.aterasaas.com/e-commerce/orders/0b334acc-5942-11f1-9447-0e9649c979d9>

C-03: Supplier Decorated PO - No Alternate, Ship to Us, Destination Warehouse

Preconditions:

- Alternate Ship To = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = Yes

Expected Result: Supplier Decorated PO ships to Destination Warehouse Address

Status: 

Order:

<https://prd.aterasaas.com/e-commerce/orders/6c721bea-5942-11f1-9447-0e9649c979d9>

C-04: Supplier Decorated PO - No Alternate, Ship to Us, No Warehouse, Corporate Identity

Preconditions:

- Alternate Ship To = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = Yes

Expected Result: Supplier Decorated PO ships to Corporate Identity Shipping Address

Status: 

Order:

<https://prd.aterasaas.com/e-commerce/orders/bf4d3d16-5942-11f1-9447-0e9649c979d9>

C-05: Supplier Decorated PO - No Alternate, Ship to Us, No Warehouse, No Corporate Identity

Preconditions:

- Alternate Ship To = No
- Ship to Us Upon Completion = Yes
- Destination Warehouse Setting = No
- Corporate Identity Assigned to Order = No

Expected Result: Supplier Decorated PO ships to Partner Address

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/ee1d0fe3-5942-11f1-9447-0e9649c979d9>

C-06: Supplier Decorated PO - No Alternate, No Additional Vendors, No Ship to Us

Preconditions:

- Alternate Ship To = No
- Additional Decorations by Different Vendors = No
- Ship to Us Upon Completion = No

Expected Result: Supplier Decorated PO ships to Order Shipping Address(s)

Status: 

Order:

<https://prd.anterasaas.com/e-commerce/orders/196d7eeb-5943-11f1-9447-0e9649c979d9>

Section D: Field Mapping Validation Scenarios (NOT TESTED GO TO [SECTION E](#))

D-01: Standard Order - Supplier PO ships to Decorator (Field Mapping)

Preconditions: Verify these fields populate from Vendor source:

- accountName 
- email 
- shipAddress1 
- shipAddress2 (only if present) 
- shipCity 
- shipState 
- shipPostalCode 
- shipCountry 

D-02: Standard Order - Decorator PO ships to Customer (Field Mapping)

Verify these fields populate from Order source:

- shippingCustomerName ✓
- shippingCompanyName ✓
- shippingCustomerEmail ✓
- shippingStreet ✓
- shippingStreet2 (only if present) ✓
- shippingCity ✓
- shippingState ✓
- shippingPostalCode ✓
- shippingCountry ✓
- shippingPhone (only if present) ✓

D-03: Ship to Us - Corporate Identity NOT Used (Field Mapping)

Verify these fields populate from Partner Company source:

- Partner Company ✓
- Partner Address ✓
- Partner Address 2 (only if present) ✓
- Partner City ✓
- Partner State ✓
- Partner Postal Code ✓
- Partner Country ✓
- Partner Phone ✓

D-04: Ship to Us - Corporate Identity IS Used (Field Mapping)

Verify these fields populate from Corporate Identity source:

- Corporate Identity Name ✓
- Shipping Street ✓
- Shipping City ✓
- Shipping State ✓
- Shipping Postal Code ✓
- Shipping Country ✓
- Phone ✓

D-05: Alternate Ship To (Field Mapping)

Verify these fields populate from Alternate Ship To source:

- accountName
- email
- shipAddress1
- shipAddress2 (only if present)
- shipCity
- shipState
- shipPostalCode
- shipCountry
- shipPhone (only if present)

D-06: Store Order - Decorator PO ships to Store Customer (Field Mapping)

Verify these fields populate from Order source:

- storeShippingAttentionTo
- storeShippingCompanyName
- storeShippingContactEmail
- shippingStreet
- shippingStreet2 (only if present)
- shippingCity
- shippingState
- shippingPostalCode
- shippingCountry
- shippingPhone (only if present)

Status: []

D-07: Address Line 2 - Conditional Display

Verify Address Line 2 / shipAddress2 / shippingStreet2:

- Displays when value is present
- Field is completely omitted when value is empty/null

Status: []

D-08: Phone - Conditional Display

Verify Phone / shippingPhone / shipPhone:

- Displays when value is present
- Field is completely omitted when value is empty/null

Status: []

D-09: Email - Display When Available

Verify email field:

- Displays when available from the source

Status: []

Section E: Multi-Decoration Chain Scenarios

E-01: 1 Line Item with 2 Artworks from Different Vendors

Preconditions:

- Standard order with 1 line item
- 2 decorations from 2 different vendors

Expected Result: Expected Chain: Supplier -> Deco Vendor 1 -> Deco Vendor 2 -> Customer

Verify:

- Supplier PO ships to Deco Vendor 1
- Deco Vendor 1 PO ships to Deco Vendor 2
- Deco Vendor 2 PO ships to Customer

Status: 

Problem: Products may not route to Deco Vendor 2

E-02: 2 Line Items, Each with 1 Artwork from Different Vendors

Preconditions:

- Standard order with 2 line items
- Each line item has 1 decoration from a different vendor

Expected Result: Expected Chain:

- Line Item 1: Supplier -> Deco Vendor 1 -> Customer
- Line Item 2: Supplier -> Deco Vendor 2 -> Customer

Verify:

- Each supplier PO routes to correct deco vendor
- Each deco vendor PO routes to customer

Status: 

Problem: Products may not route to Deco Vendor 2

E-03: Multi-Ship with Mixed Decoration Counts

Preconditions:

- Product A has 1 decoration
- Product B has same decoration as A plus a second decoration from different vendor

Expected Result: Expected Chain:

- Product A: Supplier -> Deco Vendor 1 -> Customer
- Product B: Supplier -> Deco Vendor 1 -> Deco Vendor 2 -> Customer

Verify:

- Product B correctly routes through both decoration vendors

Status: 

Problem: Products may not route to Deco Vendor 2

E-04: 1 Line Item with Ship to Us Toggle, Another Without

Preconditions:

- 2 line items
- Line Item 1 has Ship to Us enabled
- Line Item 2 does NOT have Ship to Us

Expected Result: Expected:

- Line Item 1 follows Ship to Us logic
- Line Item 2 follows standard routing

Verify: Each line item's POs route independently based on their settings

Status: 

Problem: Products may not route to Deco Vendor 2

Section F: Priority / Conflict Resolution Scenarios

F-01: Alternate Ship To Overrides Ship to Us

Preconditions:

- Alternate Ship To = Yes
- Ship to Us Upon Completion = Yes

Expected Result: Alternate Ship To takes priority; shipping goes to Alternate address

Status: 

F-02: Ship to Us Overrides Default Behavior

Preconditions:

- Alternate Ship To = No
- Ship to Us Upon Completion = Yes

Expected Result: Ship to Us takes priority over default vendor/order routing

Status: 

F-03: Default Behavior When No Overrides Set

Preconditions:

- Alternate Ship To = No
- Ship to Us = No (both toggles)

Expected Result: Default behavior applies (Vendor for Supplier PO, Order for Decorator PO)

Status: 

Section G: Store Order Scenarios

G-01: Store Order - Supplier and Decorator PO Default Flow

Preconditions:

- Order Type = Store Order
- Standard configuration (no overrides)

Expected Result:

- Supplier PO ships from Vendor
- Decorator PO ships to Store Customer using store-specific fields

Status: []

G-02: Store Order - Supplier PO Only

Preconditions:

- Order Type = Store Order
- No decoration

Expected Result: Supplier PO ships to Store Customer using store-specific fields
Status: []

G-03: Store Order - Ship to Us Logic

Preconditions:

- Order Type = Store Order
- Ship to Us enabled

Expected Result: Same as Section 2 logic but with store order field mappings

Status: []

G-04: Store Order - Alternate Ship To Logic

Preconditions:

- Order Type = Store Order
- Alternate Ship To enabled

Expected Result: Same as Section 3 logic but with store order field mappings

Status: []

Section H: Edge Case / Negative Scenarios

H-01: Missing Address Line 2 - Verify Field Omission

Preconditions: Address Line 2 is null/empty for the source

Expected Result: Address Line 2 field does not appear on the PO at all

Status: []

H-02: Missing Phone Number - Verify Field Omission

Preconditions: Phone is null/empty for the source

Expected Result: Phone field does not appear on the PO at all

Status: []

H-03: No Decoration, No Alternate Ship To, No Ship to Us

Preconditions: All override flags = No, Decorated = No

Expected Result: Blank PO ships to Order Shipping Address(s)

Status: []

H-04: Decorated but No Decorator Vendor Address Configured

Preconditions:

- Decorated = Yes
- Decorator vendor has no shipping address on file

Expected Result: System handles gracefully (error message or fallback)

Status: []

H-05: Corporate Identity with Incomplete Address

Preconditions:

- Corporate Identity Assigned = Yes
- Corporate Identity address has missing required fields

Expected Result: System handles gracefully (validation error or fallback)

Status: []

H-06: Destination Warehouse with No Address Configured

Preconditions:

- Destination Warehouse Setting = Yes
- No warehouse address configured

Expected Result: System handles gracefully (error message or fallback)

Status: []

H-07: Multiple Shipping Addresses on Order

Preconditions: Order has multiple shipping addresses (multi-ship)

Expected Result: Each PO references the correct shipping address for its respective line items

Status: []

TOTAL SCENARIOS: 42

Scenario Summary:

- Section A (Blank PO): 8 scenarios
 - Section B (Decorator PO): 10 scenarios
 - Section C (Supplier Decorated PO): 6 scenarios
 - Section D (Field Mapping Validation): 9 scenarios
 - Section E (Multi-Decoration Chain): 4 scenarios
 - Section F (Priority/Conflict Resolution): 3 scenarios
 - Section G (Store Orders): 4 scenarios
 - Section H (Edge Cases/Negative): 7 scenarios
-
