

Purchase Order Shipping Display Rules

Overview

This document defines how **shipping information** (name, company, and address fields) should be displayed on **Purchase Orders (POs)** based on:

- Order Type (Standard vs Store Order)
 - PO Type (Supplier vs Decorator)
 - Shipping Configuration:
 - Default (Vendor / Order)
 - Ship to Us (Immediately or Upon Completion)
 - Alternate Ship To
 - Corporate Identity usage
-

General Display Rules

Field Handling

- **Address Line 2:**
Display only if value is present. Otherwise, omit the field entirely.
- **Phone:**
Display only if value is present.
- **Email:**
Display when available from the source.

1. Standard Orders

1.1 Order with Supplier PO and Decorator PO

Supplier PO → Ship To Decorator

Source: **Vendor**

- accountName
- email
- shipAddress1
- shipAddress2 (conditional)
- shipCity
- shipState
- shipPostalCode
- shipCountry

Decorator PO → Ship To Customer

Source: **Order**

- shippingCustomerName
 - shippingCompanyName
 - shippingCustomerEmail
 - shippingStreet
 - shippingStreet2 (conditional)
 - shippingCity
 - shippingState
 - shippingPostalCode
 - shippingCountry
 - shippingPhone (conditional)
-

1.2 Order with Supplier PO Only

Supplier PO → Ship To Customer

Source: **Order**

- shippingCustomerName
 - shippingCompanyName
 - shippingCustomerEmail
 - shippingStreet
 - shippingStreet2 (conditional)
 - shippingCity
 - shippingState
 - shippingPostalCode
 - shippingCountry
 - shippingPhone (conditional)
-

2. Ship to Us Logic

Applies when product setting is either:

- "Ship to Us Instead of Decorator"
 - "Ship to Us Upon Completion"
-

2.1 Supplier PO Only → Ship to Internal Location

If Corporate Identity is NOT used

Source: **System (Partner Company)**

- Partner Company
- Partner Address
- Partner Address 2 (conditional)
- Partner City
- Partner State
- Partner Postal Code
- Partner Country
- Partner Phone

If Corporate Identity IS used

Source: **Corporate Identity**

- Corporate Identity Name
 - Shipping Street
 - Shipping City
 - Shipping State
 - Shipping Postal Code
 - Shipping Country
 - Phone
-

2.2 Supplier PO and Decorator PO Behavior

Supplier PO

Scenario	Shipping Source (Ship To)
Ship to Us Instead of Decorator	System (Partner / Corporate Identity)
Ship to Us Upon Completion	Decorator Vendor (Vendors Shipping)

Decorator PO

Scenario	Shipping Source (Ship To)
Ship to Us Instead of Decorator	Order (Customer Shipping)
Ship to Us Upon Completion	System (Partner / Corporate Identity)

3. Alternate Ship To

When **Alternate Ship To is set**, it overrides standard behavior.

3.1 Order with Supplier PO and Decorator PO

Supplier PO → Ship From Vendor

Source: **Vendor**

Decorator PO → Ship To Alternate Address

Source: **Alternate Ship To (Customer/Vendor)**

- accountName
 - email
 - shipAddress1
 - shipAddress2 (conditional)
 - shipCity
 - shipState
 - shipPostalCode
 - shipCountry
 - shipPhone (conditional)
-

3.2 Order with Supplier PO Only

Supplier PO → Ship To Alternate Address

Source: **Alternate Ship To**

4. Store Orders

Store Orders follow the same logic as Standard Orders with different field mappings.

4.1 Store Order with Supplier and Decorator PO

Supplier PO → Ship From Vendor

Source: **Vendor**

Decorator PO → Ship To Store Customer

Source: **Order**

- storeShippingAttentionTo
 - storeShippingCompanyName
 - storeShippingContactEmail
 - shippingStreet
 - shippingStreet2 (conditional)
 - shippingCity
 - shippingState
 - shippingPostalCode
 - shippingCountry
 - shippingPhone (conditional)
-

4.2 Store Order with Supplier PO Only

Supplier PO → Ship To Store Customer

Source: **Order**

(Same fields as above)

4.3 Store Orders with Ship to Us / Alternate Ship To

Apply the same logic as:

- **Section 2 (Ship to Us)**

- **Section 3 (Alternate Ship To)**

With Store Order field mappings where applicable.

5. Priority Rules (Conflict Resolution)

When multiple conditions apply, use the following priority:

1. **Alternate Ship To (Highest Priority)**
 2. **Ship to Us Settings**
 3. **Default Behavior (Vendor / Order)**
-

6. Summary Logic (Quick Reference)

Scenario	Supplier PO	Decorator PO
Default Order	Vendor	Order
Supplier Only	Order	N/A
Ship to Us	System / Corporate Identity	Order OR System (depends on timing)
Alternate Ship To	Vendor or Alternate	Alternate
Store Order	Same logic, different fields	Same logic, different fields
